Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-2, 4-7, 9-23, 36, 38-44, 46-49 are pending in this application. Claims 3, 8, 24-35, 37, 45, 50-52 stand cancelled.

Election/Restrictions

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, pyrazolecarboxamide compounds of Formula I (which encompasses formula II) generic. Applicant is required to elect a single compound defining R1, R2, R3, R4, and R5.

Claim 6 claims the following patentably distinct species: wherein the keratin fiber is selected from 1) head hair; 2) the eyebrows; 3) the eyelashes; 4) beard; 5) moustache hair; and 6) pubic hair. Applicant is required to elect a specific keratin fiber since applicant has independent and dependent claims directed to making-up eyelashes and treating the hair/scalp respectively which constitutes a burdensome search. Claim 41 is directed to a second active agent selected from 1) proteins and protein hydrolysates, 2) amino acids, 3) polyols, 4) urea, 5) allantoin, 6) sugars and sugar derivatives, 7) plant extracts, 8) hydroxy acids, 9) retinol derivatives, 10) tocopherol derivatives, 11) essential fatty acids, 12) ceramides, 13) essential oils, 14) 5-n-octanoyl salicylic acid or other salicylic acid derivatives, 15) hydroxy acid esters, 16) phospholipids, 17) and vitamins. Applicant is required to select a specific second active agent. Claims 43 and 46 respectively are directed one additional active compound wherein applicant claims numerous species. The applicant is requested to select a specific additional active compound.

The species discussed above are independent or distinct because each species has a different mode of operation, function, and effect.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 1616

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
